

CLAIMS

1. A laminate sheet comprising;
a long release sheet;
an adhesive layer formed on the release surface of the release sheet;
a base material formed on the adhesive layer; and
a protective material provided on a portion of the base material wherein the portion corresponds to a portion other than a principally used portion of the adhesive layer.
2. The laminate sheet as set forth in claim 1;
wherein the central portion of the adhesive layer in the widthwise direction thereof is the principally used portion of the adhesive layer, while the protective material is provided on the both sides of the base material in the widthwise direction thereof.
3. A laminate sheet comprising;
a long release sheet;
an adhesive layer formed on the release surface of the release sheet;
a base material formed on the adhesive layer; and
a protective material provided on a portion of the back surface of the release sheet wherein the portion corresponds

to a portion other than a principally used portion of the adhesive layer.

4. The laminate sheet as set forth in claim 3;

wherein the central portion of the adhesive layer in the widthwise direction thereof is the principally used portion of the adhesive layer, while the protective material is provided on the both sides of the back surface of the release sheet in the widthwise direction thereof.

5. A producing method for a laminate sheet comprising the steps of;

laminating a long release sheet, an adhesive layer and a base material in this order;

laminating, at any step, a protective sheet on the surface of the base material or the back surface of the release sheet; and

dividing the laminated protective sheet into a portion corresponding to a principally used portion of the adhesive layer and a portion corresponding to a portion other than a principally used portion of the adhesive layer, and removing the portion corresponding to the principally used portion of the adhesive layer to form a protective material.

6. A producing method for a laminate sheet comprising the steps of;

laminating a long release sheet, an adhesive layer and a base material in this order; and

providing, at any step, a protective material on a portion of the surface of the base material or the back surface of the release sheet wherein the portion corresponds to a portion other than a principally used portion of the adhesive layer.
